

State of Nevada

Information Security Committee

Charter

Document ID	Title	Revision	Effective Date	Page
S.2.03.01	Information Security Committee Charter	E	12/31/2020	1 of 2

1.0 PURPOSE

This chapter establishes the State of Nevada, State Information Security Committee.

2.0 MISSION

The State Information Security Committee is established to facilitate interaction between state departments, divisions, boards, and commissions on identifying and addressing information security related policies, standards, problems, and issues.

The secondary mission of the Committee is to serve as an advisory committee participating in development of common information security policy and standards at the State level, regardless of technology platform or agency size, and to assist in promoting State level Information Security Standards. All established and new information security policy and standards are to assist and provide guidance in providing a common direction to state agencies in developing individualized Information Security Programs consistent with their IT operating environment.

3.0 LIFE SPAN

The State Information Security Committee will exist indefinitely.

4.0 RESPONSIBILITIES

4.1 The State Information Security Committee is sponsored by Enterprise IT Services (EITS) and will be chaired by the State Chief Information Security Officer (CISO).

4.2 The responsibilities of the Information Security Committee shall include:

- A. Serve as an advisory committee to the State on IT security issues.
- B. Establish state level information security policy and standards.
- C. Identify, review, and resolve state level information security problems and issues.
- D. Function as a working body to define and develop common information security policy and standards that will apply to all agencies, all IT platforms, and the processing and security of electronic records.
- E. Promote information security understanding and awareness throughout the State, particularly members' respective agencies.
